

FS-16 AP

Plastic Spout

The FS-16 AP is a Flexspout® closure engineered for 63mm crimp-on, open-top plastic containers. Built for pour efficiency, safety, and tamper evidence, it suits industrial applications and fits 3.5–6.5g M1, M2, M3, and M4 lids.

With venting options like PV-TFE-1 and TFE-HP2 microporous vents, plus add-ons including polybagging and low-temp variants, the FS-16 AP offers airflow control, branding flexibility, and dependable performance in demanding environments.

Part #: 470011

FEATURES

- 63mm Gray All Plastic Cap - Clear natural press-in Flexspout
- Double Bail Design - Tool required, tamper-evident
- Pop Up/Pull Out Ring Pull Diaphragm - Easy access, secure seal
- Large Pour Opening - 40% faster pour with no glugging
