

VERSATILITY & EFFICIENCY

# PV-20-52

## Vent Cap

Engineered for flexibility across multiple container types, this vent cap fitment enhances dispensing performance while supporting efficient production workflows. Its design ensures smooth product flow and easy integration with a wide range of lids including: 1.0g M2, 2.0g M2, 3.5-6.5g M1, M2, M3, and M4.

Optional assembly and polybagging offer added convenience, making it a reliable choice for high-volume packaging

**Part #: 470002**

### FEATURES

- Attached Cap - Ensures easy resealing
- PolyGrip Vent - Compatible with lined and unlined containers
- Natural Color - Clean, standard finish
- 3/4" Fill Opening - For efficient filling and dispensing
- Tamper-Evident & Resealable - Secure and reusable
- Convenient Pull-Ring - Allows easy removal of diaphragm
- Pressure/Vacuum Relief Closure - Prevents surging and allows smooth dispensing
- Unassembled Configuration - Simplifies storage and shipment
