

## FS-80

# Vented Screw Cap

The FS-80 is a rugged, tool-applied closure built for industrial and chemical use. Compatible with 1.0g M2, 2.0g M2, and 3.5–6.5g M1, M2, M3, and M4 lids, it provides a secure seal across various container types. Add-on options include polybagged and twist-tied packaging for cleaner handling. With flexible vent and gasket configurations—including specialty options—the FS-80 is designed to perform in demanding environments.

**Part #: 470005**

### FEATURES
