

SECURE & STREAMLINED

TFS-1-P White Junior Plastic Spout

The TFS-1-P is a compact Flexspout® closure engineered for plastic open-top containers, offering a secure and efficient solution for controlled dispensing. Compatible with 3.5–6.5g M1, M2, M3, and M4 lids, it supports a range of container configurations. Optional microporous venting allows for pressure management, and polybagged and twist-tied packaging ensures clean, organized handling during high-volume operations.

Part #: 470006
